# Independence Day

## 15 August 2023

It took hundreds of years for us to break the shackles of slavery. People of the country celebrate this festival every year with great pomp and show on 15 August. Principal Mr Ram Krishna Shakya and Headmistress Ms. Renu Singh hoisted the National Flag. Cultural programs added flavour to the celebration. The speeches were delivered by the Principal and the students.

*"May the spirit of patriotism and love for our country lead you towards a brighter future."*

# Nasha Mukti Abhiyan

11 August 2023

'Nasha Mukti Abhiyan', an awareness drive to showcase the harmful effects of drugs was undertaken by the students of Avalon World School Waghodia as a part of an ongoing CBSE initiative. A rally was organised wherein students displayed placards made by them & they took a pledge to stay away from drugs.

# Paratha Day

11 August 2023

Paratha is an important part of traditional breakfast in Indian. Often a paratha is eaten with butter, chutney, pickles, ketchup and yoghurt. Students of pre-primary wing brought different kinds of parathas, shared it with their classmates and enjoyed the day .

# Science Week

## 31 July - 4 August 2023

Avalon World School's Science Week celebration from 31st July to 4th August, 2023, was centered around the theme "SCIENCE FOR EVERYONE." The objective was to encourage students to explore and understand science and its practical applications in everyday life. The special assemblies during the week were conducted by students. Students from grades 2nd, 3rd, and 4th recited modern versions of famous rhymes that addressed the environmental issues. The aim was to inspire everyone to take action in saving the environment. Students of grades 6th and 7th presented a play that aimed to educate everyone about the various uses of baking soda in everyday life, showcasing its importance and versatility. Students from grade 9th performed a NUKKAD NATAK, which is a street play, to emphasize the theme of Science week and highlight the significance of science in daily life. Throughout the week, the bulletin boards in all classes were updated with interactive materials based on different science topics. Students engaged in activities on these boards to grasp scientific concepts in a fun and interactive manner.

# Social Science Week

## 21 to 26 August 2023

Education is not only learning of facts but training of the mind to think. To make learning joyful and meaningful two themes were taken up during the “Social Science Week” . One was “Ek Bharat Shreshtha Bharat” and other was “ 2023- International Year of Millets”. To create awareness and foster understanding, various activities were taken up like speeches, role play, dance , songs, comparative analysis and rangoli made from millets. When we are having a good time, learning becomes easy and is not a strenuous task.

*"Social Science is itself part of the social experience it seek to interpret and explain."*

## 2023 - international Year of Millets

The Food and Agriculture Organization (FAO) and United Nations (UN) has recognised 2023 as International Year of Millets or IYM2023 for awareness about health and nutritional benefits of millets. The Indian Government proposed to celebrate 2023 as International Year of Millets. Millets can play an important role and contribute to our collective efforts to empower smallholder farmers, achieve sustainable development, eliminate hunger, adapt to climate change, promote biodiversity, and transform agrifood systems.

Millet, a grain mainly grown and consumed in developing countries until recently and once considered a poor man's staple, is quickly becoming a favourite globally among those affected by climate change because of its ability to thrive in harsh and arid environments. Its drought-resistant quality makes it attractive as many parts of the world begin to experience a water supply shortage. Because millets use less water to produce and grow in less time, it can be an alternative to imported cereals. Millets also have high nutritional values.

In addition to millet's attractive growth characteristics, it is one of the most nutritious and anti-allergenic grains available. Millet is gluten-free, making it an excellent choice for the millions of people around the world who suffer from Celiac disease or have a gluten sensitivity. It is high in vitamin B, calcium, iron, potassium, zinc, magnesium, and fats. And it is an excellent source of protein and dietary fibre. Millet production is projected to sharply increase due to its many health benefits and ability to grow in a variety of climates. Now that 97 percent of actively publishing climate scientists agree climate change is real, countries and organizations are beginning to take more meaningful steps to ensure their food supply can withstand the changing environment. Millets can play a key role in achieving that objective, and it is hoped that by declaring 2023 as the International Year of Millets, more attention will be paid to this important grain.

## "Ek Bharat Shreshtha Bharat"

**Ek Bharat Shreshtha Bharat." This endeavor, initiated by the government in 2015, is a testament to India's unity in diversity, fostering cultural exchanges that bridge gaps and forge deeper connections among our States and Union Territories.**

**This initiative was conceived with the noble purpose of fostering a stronger sense of national unity and pride. Launched in 2015, it aims to instill in us the understanding that despite our regional differences, we are all united by our shared identity as Indians.**

**Through "Ek Bharat Shreshtha Bharat," States and Union Territories are paired to facilitate meaningful cultural exchanges. Artists, students, and citizens participate enthusiastically, sharing their unique heritage and embracing the diversity that defines us.**

**However, this initiative goes beyond cultural exchanges. It fosters collaborations between states and Union Territories in various sectors. These joint efforts contribute to our collective progress, making our nation stronger and more resilient.**

**Now, let us turn our focus to Gujarat, our vibrant state, which boasts a cultural identity that is as diverse as it is rich. Its festivals, traditional practices, and art forms add unique threads to the fabric of our nation's cultural mosaic.**

**In the spirit of "Ek Bharat Shreshtha Bharat," This year, Gujarat is paired with Jammu and Kashmir, allowing us to embrace and understand the traditions of our fellow Indians. Throughout the year, Gujarat hosts a plethora of cultural events that showcase the heritage of its partner J&K. These events offer us glimpses into different ways of life, helping us broaden our horizons.**

**"Ek Bharat Shreshtha Bharat" isn't just an initiative; it's a journey towards fostering harmony and unity. By embracing our diversity, learning from one another, and collaborating for a better future, we contribute to the dream of a stronger and more united India. Let us actively participate, celebrate, and uphold the values of "Ek Bharat Shreshtha Bharat" for generations to come.**
