(प्राचार्य)

नमस्कार!

विद्यालय की पत्रिका ' उन्नयन ' का प्रथम अंक आप सभी के हाथों में सौंपते हुए मुझे बड़ी प्रसन्नता हो रही है। जैसा कि ' उन्नयन ' शब्द अपने नामानुरूप सदैव ऊपर की ओर अग्रसर होने का संकेत करता है यानी उन्नति की ओर बढ़ना। यह किसी विचार या अनुभव का सबसे महत्त्वपूर्ण हिस्सा है कि एक कड़ी मेहनत के बाद किसी निष्कर्ष (उन्नयन) पर पहुँचा जाए।

मित्रों जीवन में हर कोई यह इच्छा रखता है कि वह पहले की अवस्था से अच्छी अवस्था की ओर बढ़े और यह मानव - स्वभाव भी है कि अच्छा करें... और अच्छा करें। इस बात को हम यों कहें कि भारत की उन्नति भारतीयों पर निर्भर है। आगे बढ़ने की यह प्रक्रिया वास्तव में उन्नयन है। साथी कर्मचारियों के उन्नयन के कारण ही आज मेरा विद्यालय उन्नति की ओर अग्रसर है।

मित्रों किसी भी काम में जब पूर्ण आत्मविश्वास एवम् दृढ़ संकल्प के साथ आगे बढ़ा जाए तब उन्नति ज़रूर होती है।

उन्नयन पत्रिका का उद्देश्य भी यही है। आइए उन्नति की ओर बढ़ते कदम में आप, हम सभी साथ हैं।

Renu Singh
(Headmistress)

Online Classes and Motivation

Interest in the role that student motivation plays in the online learning environment has increased along with the dramatic growth in online learning opportunities today.

Maintaining motivation may be more difficult for online students as they face problems related to social isolation and technical issues that cause frustration which were not as frequently experienced by students in face-to-face classes.

Research on the effects of academic self-regulation and motivation on learning has demonstrated important links between the two. Students with more developed self-regulatory cognitive skills tend to be more academically motivated and learn more than others.

Motivation is described as a process through which individuals instigate and sustain goal-directed activity. Motivation is generally viewed as a process through which an individual's needs and desires are set in motion.

Academic motivation reflects students' levels of persistence, interest in the subject matter and academic effort; it is viewed as a contributor to academic success.

While motivation is critically important to student learning, lack of motivation is a frequent problem with students at all levels. All learning environments present challenges, but the online environment presents unique challenges because students bear more responsibility for their own learning than in many traditional classes. Because of these challenges, students' ability to influence their own motivation is important.

Self-regulated learning is described as an active process whereby learners construct goals for learning. Learners monitor, regulate, and control their cognition, motivation, and behaviour. They are guided and constrained by their own goals and the individual characteristics of a particular learning environment.

Zimmerman (1989) described self-regulated learners as "metacognitively, motivationally, and behaviourally active participants in their own learning process".

It reflects a commitment to completing one's study goals, even when there are difficulties or distractions.

This brings us to the very special role teachers and parents can play in keeping the students adequately motivated so that they are able to focus on the tasks at hand, celebrate their small achievements, remain in a happy frame of mind and are free of all worries!

Some tips for teachers and parents to motivate the students:

1. Promote a positive and friendly learning environment.
2. Clearly define the objectives and expectations.
3. Constantly check their progress and achievements
4. Praise whenever possible.
5. Use multiple strategies to keep them interested.
6. Give them control and decision making power.
7. Be motivated and positive yourself.
8. Keep the lines of communication always open.

CELEBRATIONS

World Environment Day 5-June-2021

World environment Day was celebrated by students of Avalon World School. Students enthusiastically participated in a tree plantation. They pledged to conserve the environment.

“It is our collective and individual responsibility to preserve and tend to the world in which we all live.”
- Dalai Lama

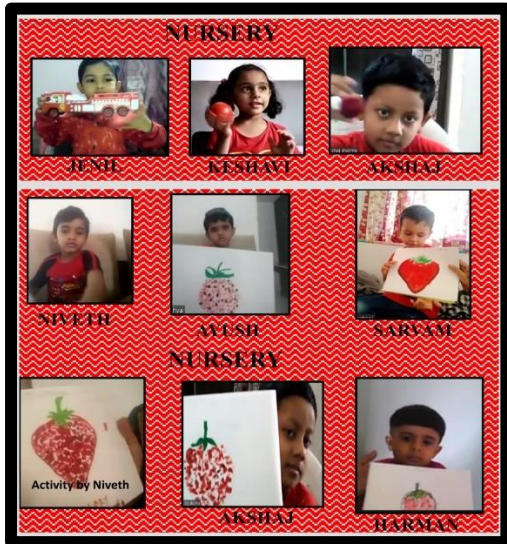

“Let’s nurture the nature so that we can have a better future.”

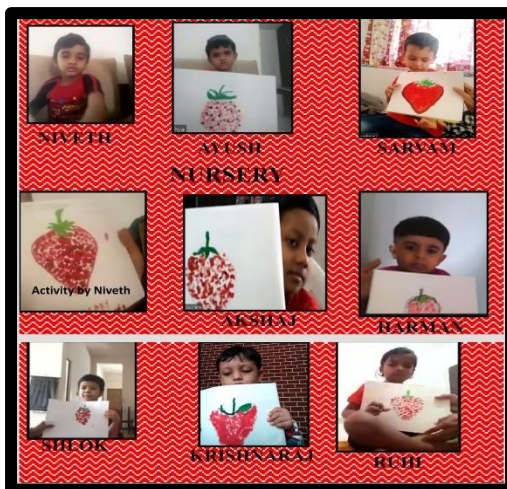

Red Day Celebration 11-June-2021

The preprimary section celebrated 'Red Day' virtually which was a wonderful learning activity. It helped children to sort and classify objects based on colours there by reinforcing cognitive skills. It was a scintillating day with innocent faces gleaming and reflecting brightness, joy, love and happiness.

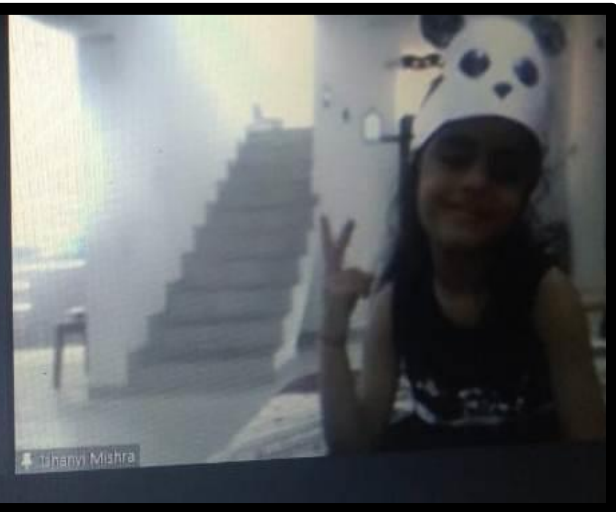

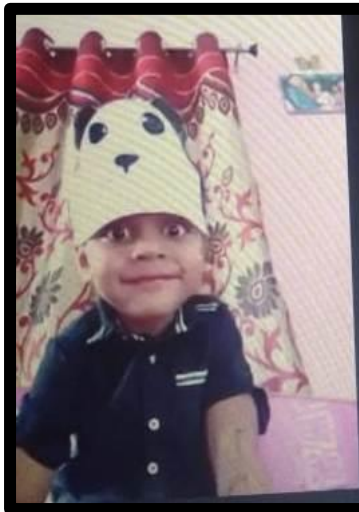

“Colours are the smiles of nature.”

Black and White Day Celebration 16- June-2021

Pre-School celebrated "Black and White Day". The objective of celebrating this day was to help learners not only to identify the colours but also to develop their fine motor skills and build connections to things around them. It was indeed a fun-filled learning day.

National Reading Day Celebration 19- June -2021

The Day is celebrated to honour the father of the 'Library Movement in Kerala', the late P.N. Panicker, whose death anniversary falls on June 19. An online quiz, was held to motivate the young readers and E- Library was shared.

Asked to educate the three dull sons of a king in ancient India, this teacher came up with a fascinating collection of stories - the 'Panchatantra' - that spoke of animals and birds but taught the young princes everything they needed to know to become good rulers.

1st	Kimaya Sethi	X	Honesty
2nd	Jainit Jain	X	Equality
2nd	Hasti Parikh	X	Equality

STUDENT'S CORNER

Away in the greens...

Long long away in the greens
Away from the people and Marines
I see the trees giving shadows
In the beautiful green meadows.

I'm being free just like a bird
"Wow so beautiful", I murmured
And then towards the river bank I stand
With cold orange juice in my hand.

Away from the forests of wild
Feeling the air very mild
The pleasant breeze with love which is filled
I put my sunglasses on, very calm and very chilled.

Long long away in the greens.

PURBI PATEL

Class 9th

NOSTALGIA

*A year has passed by
In front of my eyes.
As I witness, how life
played
It's diplomatic,
pre planned moves.*

*Gone are those days
Of laughing at silly, little
jokes.
Gone are those days...
Of pulling mischievous
pranks and fights.
And my friends fall prey to
them,
With my face ,
A mask of sheer innocence.
Silently awaiting the
teacher's
Wrath and anger,
After being caught red
handed.*

But...
*Today I stand alone ,
At the crossroads of life,
Nervously
Sweat drippin' off me
Time to divide
WHICH class AY AND
WHICH WAY NOT!
Because the decision
afterall has to be my own.*

*And has brought me,
To the crossroads of life ;
Where I stand today,
Looking forward to what
awaits
To engulf me into its
galaxy .*

*Gone are those days....
Of waking up in morning,
With no worry of the world
Cuz mom was there to
handle the rest .
And dad to give into ,
Every single tantrum I
threw.*

*And as I wait here,
Calculating, anticipating;
My mind rewinds back to
those
Blissful, carefree days,
And Lord !
How I wish
If I could have had some
more ,
Just a single second
more...
Time;
Time to rewind it's
course.....!*

*And I at the same time ,
Feel overwhelmed with
nostalgia
Of the days back then.....
Back then when my little
games
Were the portrait of my
innocence,
My blissful ignorance bout'
the world
That I so suddenly
abandoned too.*

*There were days when the
world meant,
Friends, family, good and
fun
And now , suddenly,
I snap back into the
present
Where life has a lot
meaning in it ,
Than I ever imagined.*

Kimaya Sethi
Class 10th

EDUCATOR'S CORNER

कविता - खाली स्कूल

आज हैरान परेशान सा है स्कूल का हर कोना ,पूछ रहा है वो कहाँ गया बच्चो का हँसना -रोना ।

क्यों हर कक्षा के बाहर लटक रहे है ताले, कहाँ गए वो बच्चे जो थे इसमें पढ़ने लिखने वाले ।

कक्षाओं के अंदर वह सारे बेंच आज खाली पड़े है ,जिनपर बैठने को कई दोस्त आपस में लड़े है ।

सुनसान सा पड़ा है वो खेल का मैदान ,जहाँ खेलते थे खिलाड़ी लगाकर अपनी जान ।

स्कूल की गलियारों में अजीब सी शांति पसरी है,आते -जाते बच्चो की अब न कोई अफ़रातफ़री है।

ऑफिस रूम से अब नही सुनाई देती वो घंटी जिसकी आवाज़ पर दौड़ी आती थी आंटी।

वह स्टाफरूम जहाँ रहती थी हरवक्त चहचहाहट ,वीरान सा पड़ा है न होती वहाँ कोई आहट ।

चाय की चुस्कियों के साथ अध्यापिकाओं का बतियाना ,छोटी -छोटी भूख के लिए बच्चो का कैंटीन की तरफ जाना ।

कभी डाँटते थे हम ,बच्चो चुप रहो न शोर करो ,आज चाहता है दिल कहना -बच्चो शोर करो और जोर करो ।

लगता है पेड़ों पर पंछी तबतक नही चहचहायेंगे जबतक उनकी आवाज़ सुनने बच्चे स्कूल नहीं आएंगे ।

माँगते है आओ अब रब से हम दुआ रहे जग सारा स्वस्थ और बच्चे जल्द आए स्कूल ।

प्रियंका झा

एवलॉन वर्ल्ड स्कूल वाघोड़िया

Dear children,

We are really sorry that you all are facing this tough time for no mistake of yours. We don't have answers for most of your questions but you are the solution for all our problems. We are going through a tough time but the only thing that makes all the lessons and losses worth it, is you.

Even in tough times, the driving force that keeps everyone going is you. In ambition of fulfilling all your dreams we overburdened the resources to such an extent that now we all are deprived of basic necessities such as air and freedom.

So, it is a humble request to all the children please don't let your emotional, intellectual, social, mental and physical growth be compromised in this difficult time. Do what is best for you to bring smile on your faces which will eventually spread to others around you. Share the new things that you learn or experience with your parents. Do let them know that you are able to cope up with adversity and will emerge out of it as a stronger person. Keep yourself busy in a fruitful way by learning new things everyday like cooking, painting, cleaning, reading, etc. Do make all the risks your parents are taking while going out for work to secure your future, worth taking. You all can contribute a lot in this fight of mankind against the pandemic. You are our hope. You are our future.

MS. KANCHAN BALA
